RSVP Required | Call or text Zoe 323-422-0002 | Email zoe@msia.org

Production Highlights: Filmed on location in Utah, this SAG Ultra low indie gives high production value. | With sound from Academy Award Winning Sound Designer Dane Davis (The Matrix), this movie pushes the envelope with its abstract and supernatural storytelling via sound. | Garcia was mentored by Steven Soderbergh resulting in the non-linear editing style used throughout the movie creates an artistic, intelligent and thought-provoking experience. | This inspiring art-house indie presents audiences with questions not answers, and a unique experience and journey with which to discover their own meaning: of the movie; of the afterlife; of life itself.

Movie Synopsis: Running from mistakes of the past, a man finds a secret book with ancient powers - a tool that can give him the answers he seeks. But a Dark Force has been stirred ... one that will stop at nothing to reclaim the sacred text. When the book is stolen, an age long battle resumes. But his teacher: a "Wayshower", can only show him the path to victory, for he must win this battle on his own.
